PER CURIAM.

Carol Joan Juenger appeals the district court's denial of Juenger's motion for a new trial based on the inadequacy of the jury's verdict. She also contends the district court improperly admitted adverse medical testimony in this diversity-based personal injury lawsuit. We review the district court's rulings under well-established standards, including de novo review of state law questions. Based on the record before us, we find no error that would require reversal. Accordingly, we affirm. See 8th Cir. R. 47B.
