PER CURIAM.

Arkansas Acorn Fair Housing, Inc. appeals an adverse grant of summary judgment on its Fair Housing Act claim that the Bailey Corporation's rental agents misrepresented available housing information in violation of 42 U.S.C. § 3604(a) (1994). Having reviewed the record and the parties' submissions, we conclude that an extended discussion is not warranted. We see no error by the district court and affirm the judgment substantially for the reasons stated in the district court's memorandum opinion. See 8th Cir. R. 47B.
